

Flux

Bottobo aims to revolutionize the AMR market by its solid technology and business model behind.

Collaborative

Working in harmony with human workforce

AI Based WIS*

Proprietary AI based
*Warehouse Intelligence
System helping human
employees and
management

Scalable

Onboard new robots
just in days. Hassle-free.

Plug & Play

Deployment within less
than 30 days

No Investment

Zero changes to existing
infrastructure while no CAPEX
for Robots (RaaS model)

No Infra Changes

No need to change existing
infrastructure, we do not even
stick silly april tags to you
racking/shelving.
) Sorry competition,
respectfully

No Pause

Seamless transition.
Your operations won't stop
during implementation.

Instant Impact

Increased productivity by
2X to 3X in no time.
